

INSTITUTE SUMMER PROJECT ALLOCATION (ISPA) REPORT

ISPA was organized across all departments (except Energy). Over 60 professors floated summer projects and over 450 students applied for projects. Around one-fourth of them were selected by the professors and finished their projects successfully. It was due to the efforts of various DGSecs, Department councils and D-AMP teams that ISPA could be organized at the institute level.

Following tables show department and year-wise statistics.

Table-1: Department-wise distribution of Professors who floated projects

Aerospace	1
Chemical	5
Chemistry	6
Civil	12
CSE	3
Electrical	17
EP	4
Mechanical	5
MEMS	7
SOM	2
Total	61

Table-1: Department-wise applicants

Aerospace	21
Chemical	47
Chemistry	9
Civil	68
CSE	18
Electrical	99
EP	35
Mechanical	54
MEMS	57
Total	408

Table-3: Department and year-wise distribution of students who completed their projects successfully

	1st year	2nd year	3rd year	Total
Aerospace	3	5	2	10
Chemical	0	0	0	0
Chemistry	5	7	0	12
Civil	8	17	2	27

CSE	2	3	0	5
Electrical	0	27	0	23
EP	5	3	0	8
Mech	0	5	0	5
MEMS	1	13	0	14
SOM	1	3	0	4
Total	25	83	4	112

Timeline:

18 th April	Mail sent on Student Notices. Interface for project allocation opened.
20 th April	Interface closed.
End of April	Projects allocated to students
2 nd week of May	ISPA orientation organized by GSAA

Other notes:

1. Over 80 students applied for projects floated by professors from SOM.
2. Students were supposed to fill weekly reports sent out on their group.
3. Almost all students received a “satisfactory” tag from their professors for their performance.
4. So far, at least 5 students among those who completed their project through ISPA have been awarded the URA.
