

MANIFESTO

I, **Ali Parkar** (130040023), if elected as the post of **Class Representative** propose to do the following:

- I will act as a **medium of communication** between students and the professors.
- I will coordinate with professors and **adjust the schedule of quizzes/lectures** according to the common convenience of the class.
- I will try to make sure that **labs are not held on consecutive days** for the upcoming semesters.
- Will **share all the required course material** i.e. e-books, past year question papers etc. at the start of each semester.
- Will **increase awareness about different research projects** going on in the department especially during summers under the **SPUR**.
- Will suggest the professors to consider **best 'm' out of 'n' quizzes** policy for grading to give better opportunities to students.
- Try to **upload the attendance list** halfway through the semester to make students aware of their conditions for courses requiring mandatory attendance.
- Will conduct an **internship/apping session** at the start of next semester.
